

APPLICATION AUTHORISATION 2019

Print off this document, complete and scan it and upload it along with your quote and annotated project plan when submitting your online application.

Quote requirements

The attached quote must be legible and clearly identify the plant nursery or similar organisation.

The quote must clearly list the specific native plant species and their costings. Generic listings or estimated costings may not be accepted.

The grant of up to \$500 is provided only for native trees and woody shrubs. Only the cost of sustainable native plants listed in the quote will be funded.

Annotated project plan

Attach a clearly annotated plan that shows the location of your proposed plantings.

One of the most effective ways to approach this is to use an existing school map, with annotations showing where new plants are to be planted. Artistic representations or not-to-scale sketches are not acceptable to meet this criteria.

School Name

Federation Representative

Name and signature

Principal

Name and signature

Tree levy contact

Name and email

Has this school previously received a Tree Levy grant? Yes No

Teachers Association endorsement

Association President/Secretary

This form, quote and online Tree Levy application should be submitted by 4pm on Friday 5 July, 2019 at
